## How to calculate the weight?

**Shipping weight(kg)=**

**Width(mm) X Height(mm) X Quantity /1,000 X Paper weight(see below) X  
1.37/1,000,000**

ex)500qty of Premium silk card(290g):

**89mm X 51mm X 500 / 1,000 X 290 X1.37 /1,000,000 = 0.902kg**

| Item               | Sub Item   | Weight(gram) |
|--------------------|------------|--------------|
| Premium card       | silk       | 290g         |
|                    | crystal    |              |
| Regular card       | Silk       | 200g         |
|                    | No Coating | 250g         |
